To Whom It May Concern

Re: Recommendation of Vanmar Constructors Inc.

It is with great pleasure that I recommend Vanmar Constructors as a professional construction management firm. gBL Architects worked alongside Vanmar to build a highly regarded 108 unit, social housing , LEED gold project that completed construction this year. Vanmar was instrumental in ensuring the projects goals, objectives and budgets were successfully achieved.

Vanmar's team has been proactive and exceptional from beginning to end. Their management possesses an exceptional blend of experience, skill and passion; when met with issues they dealt with them efficiently and in the most economical way for our client. The early stages of this project were met with many delays due to the Olympic Game closures of access streets, which put the build on-hold. Once the Olympics had concluded, and our streets were reopened, Vanmar was able to catch up to the timeline and complete the build as scheduled.

We have sincerely enjoyed working with Vanmar and look forward to working with them on future projects.

Sincerely,
gBL Architects Inc.
